

Fault View (initial view)

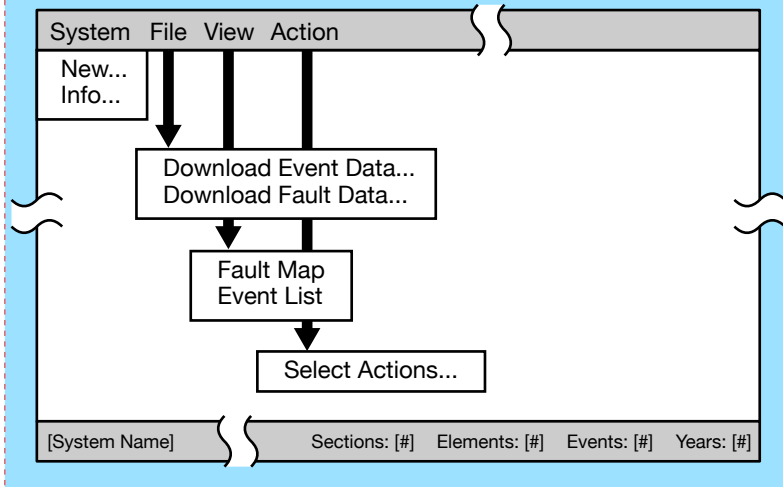

A map of all of the faults in the system.

Event View

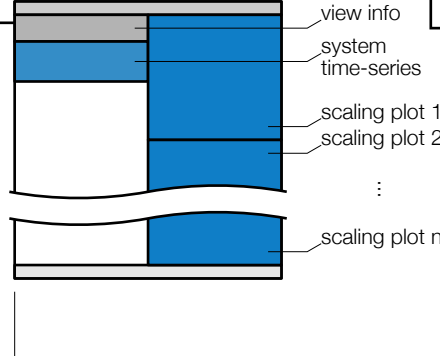

A searchable list of all of the events in the system.

(these are the same everywhere)

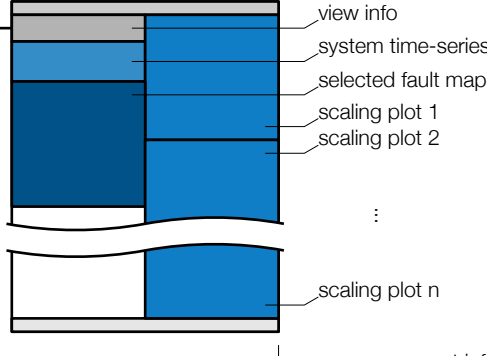

Action: Scaling Plot filtered by event or year only

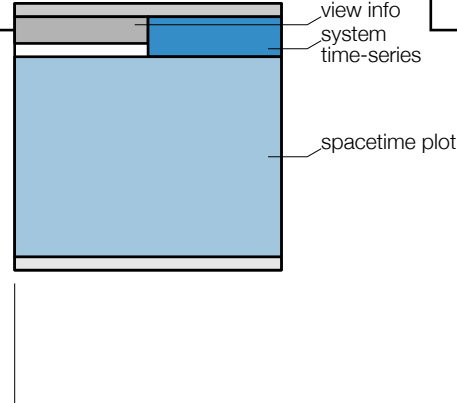

One or more scaling plot. Currently implemented scaling plots are: Frequency-Magnitude, Magnitude-Rupture Area, Magnitude-Average Slip, Average Slip-Rupture Length.

Action: Scaling Plot filtered by section and event or year

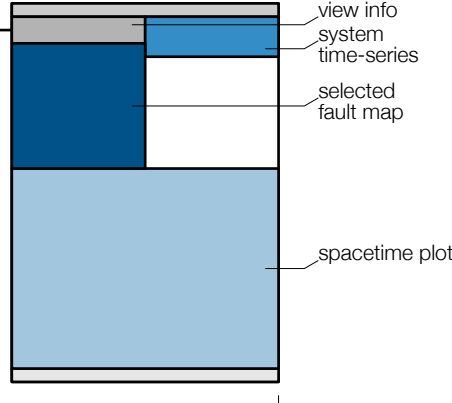

Action: Spacetime Plot filtered by event or year only

A spacetime plot that shows event magnitude, and where and when they occur.

Action: Spacetime Plot filtered by section and event or year

Event Detail View
